

# COREY

Trustee

## HYDE

I am currently employed as a consultant in the property infrastructure industry. I was employed at Cambridge Stud both during my studies and for a short time post-graduation.

### TRUSTEE SINCE 2020

## CONNECTION

I spent 5 years as a student at St. John's College while making the daily bus trip from Te Aroha.

I am grateful for the camaraderie and resilience that resulted from these daily commutes to school.

Upon graduation from St. John's, I attended the University of Waikato and graduated with a Bachelor of Laws and Management Studies.

In total I spent more than a decade learning and developing as a young man on the St. John's school site and the adjacent University site, so I feel a very strong connection to the land 'upon the hilltop' on Hillcrest Road.

## ASPIRATIONS

I have a strong desire to see young catholic men receive the same (and hopefully even greater) opportunities that I did in my time at the school.

Coming from a rural setting outside of Hamilton, my hope is that young men throughout the wider regions can continue to access a great educational facility that allows them to thrive and develop their skills and catholic character.

I believe that sport is a great mechanism for driving greater physical and mental wellbeing in young men, and I am excited to be involved in the capital projects that seek to enhance these opportunities for St. John's students.
