

# DAVID

Chairman

## KILBRIDE

My career has centred around the agricultural industry with roles in rural banking, farm consultancy and now selling rural real estate.

All the while we have lived and owned a dairy farm on the outskirts of Cambridge

### TRUSTEE SINCE 2016

## CONNECTION

I attended SJC from 1981-85.

Following me were my 2 brothers, numerous cousins, as well as my son who completed his Senior year in 2020.

still have a strong connection with friends from school days and become involved with the trust in 2016.

## ASPIRATIONS

With SJC now into its sixth decade we have some real history, it is important to renew and strengthen connections with the old boys.

With this strength of connection we can call on old boys to support the school. This support can be by way of scholarships and or funding physical projects within the school of which we have several projects underway.

The school has seen significant roll growth in recent years. With that often comes a strain on the resources which is an area that the trust can play a part in and ensure there are no barriers for Catholic boys in the Waikato to attend SJC
